PLAYS HIGHWAYMAN AND LANDS IN JAIL

Wiley Parker Intercepts Mr. and Mrs. Alonzo Hadley Near West Weber.

OGDEN, Feb. 11.—As Mr. and Mrs. Alonzo Hadley were driving home near West Weber late Wednesday evening, they were suddenly halted by a man stepping from the darkness and grabbing the horse's bit. Mr. Hadley jumped out and grappled with the fellow, and soon a lively fight in the darkness was in progress. Mrs. Hadley remained in the buggy and held the horse while her husband rolled over and over with the unknown man. In the heat of the fight, the stranger drew a knife and attempted to cut Mr. Hadley, but fortunately he wore very thick clothing, and aside from a few cuts on the hands, he escaped unscathed. As rapidly as possible he freed himself from the stranger's grasp and jumping into his buggy, drove to the nearest telephone where he communicated with the sheriff's office. The stranger was soon located and gave his name as Wiley Parker. He stated that he had no thought of holding up anybody but simply stopped the horse as a joke, thinking it was driven by some boys for whom he was waiting. Parker was taken to the county jail and will be charged with assault with a deadly weapon with intent to do bodily harm.

HEAVY FLOODS LOOKED FOR WHEN WINTER BREAKS

OGDEN, Feb. 11.—The winter season still continues to uphold its splendid record in this locality and if the snow remains on the ground till the 25th of the month, it will be exactly three months since the first heavy storm of the season began, and during the entire intervening time there has not been a single day when it was not possible to sleigh ride in the residence district of the city. Snow began to fall shortly after midnight on Wednesday and continued the greater part of Thursday, and piled up to a depth of about four inches. The temperature had not dropped below 25 above zero for several days, but very little melting weather has been given by the weather man. Without doubt this is the longest real winter season known in this locality for many years, and judging from the heavy fall of snow in the hills and mountains, the water supply will be better than for a quarter of a century. It is feared that extreme flood conditions will prevail in the lower districts of the city when warmer weather begins, and every precaution is being taken to safeguard property when the melting March rains set in. In the districts near the Ogden river, it is almost certain that many of the streets will be submerged for several years this has been the case, even when there was not nearly so much snow stored in the mountains.

OGDEN POLICE COURT.

OGDEN, Feb. 11.—John Jones was arraigned in police court Thursday morning charged with disturbing the peace and was fined \$10.

Bert Cody and Mike Riley, both charged with vagrancy, were sentenced to serve ten days in the city jail.

Cora Johnson and Flora Wilson were found guilty of disturbing the peace and fined \$5 each.

M. H. Foster admitted having been unlawfully drunk and received the usual sentence of five days or \$5.

The case against Gus Trollich, charged with keeping his pool room open on Sunday, was dismissed. The court held that the charge should have been brought under the state laws instead of the city ordinances.

The state of Utah against Edward Freeland, charged with assaulting John Van Loon was called. Testimony showed that there had been a quarrel between Freeland and Van Loon following a dispute about wages and that Freeland had endeavored to knock Van Loon down. He was fined \$10 and costs or a total of \$17.95.

CAMPAIGN AGAINST VICE.

OGDEN, Feb. 11.—Walter Farr and Bert Cody, sons of prominent people of Ogden, were arrested here yesterday on the charge of forging names of physicians to prescriptions for cocaine. Indignation has been aroused over the many cases of cocaine fiends reported in the city, and it is claimed that physicians have been allowing their names to be signed to prescriptions for the illegal sale of the drug. Chief Browning announced today that he would rid Ogden of the cocaine habit if he had to arrest every doctor and drug store man in the city.

DEATH OF JOHN STAKER.

OGDEN, Feb. 11.—John Staker, one of the pioneers of Weber county, died Thursday afternoon at 5:25 at the home of his son, William E. Staker at West Weber following a stroke of paralysis. Mr. Staker was born Nov.

5, 1827, in the province of Ontario, Canada, near the city of Toronto and joined the Mormon Church in his early boyhood and was a devoted member. In 1853 he emigrated to Utah, traveling with an ox team across the prairies and endured all the many hardships of those heroes of the nineteenth century, Utah's pioneers. He came directly to Weber county, where he has since resided. He is survived by three sons, William E., Chauncy and Charles Staker and one daughter, Mrs. Rebecca Howell of Boise, Idaho, also 24 grandchildren and 23 great-grandchildren. His remains were removed to the undertaking parlors of Larkin & Sons and funeral announcements will be made later.

ORCHARD HEATERS TESTED BEFORE FARMERS' SCHOOL

(Special Correspondence.)
PROVO, Feb. 11.—Prof. E. H. Smart of the Brigham Young university has made a test of orchard heaters for the benefit of farmers attending the farmers and housekeepers' school now in session in this city. Three heaters were tried. The common wire heater, manufactured in Springfield and the Ideal and the National, both manufactured in Grand Junction. The test was made in an orchard of 5-year-old trees, with 70 heaters to the acre. The results were not so good as the test of last week, but it demonstrates that more than 70 heaters to the acre will have to be used to bring the desired results. Another test will be made on Provo Bench next week with Prof. E. H. Smart in charge.

Cliff, who all testified to the worthy life of the deceased, and spoke words of consolation to the bereaved family and relatives. Appropriate vocal selections were rendered by the ward choir.

BUILDING SOCIETY ANNUAL.

PROVO, Feb. 11.—The stockholders of the Provo Building & Loan Society held its annual meeting Wednesday night and received reports of the society's business for the year, which showed a very satisfactory condition. Forty loans to build and improve homes in this city have been made during the year, and the profits amount to \$24 per cent, of which \$6,417.43 will be paid in dividends, \$13.05 will be added to the reserve fund and the balance of \$7,000.00 will be paid to the stockholders. The officers were all re-elected. They are: Thomas N. Taylor, president; J. E. Booth, vice president; H. F. Thomas, secretary; Julius C. Anderson, assistant secretary; Walter H. Dixon, treasurer; O. W. Andelin, Robert Bee, John C. Swensen, Jesse Knight, C. H. Miller, James L. Brown and Willie K. Spafford, directors; F. G. Warwick, David Openshaw and John D. Dixon, auditors.

The society in six years it has been organized has built hundreds of homes in this city. It has paid \$15,872.20 in dividends; but the dividend paying feature is a comparatively unimportant matter, as the society was organized by public spirited men with the object of encouraging the people to build homes on easy terms with home capital, and in this the society has been successful.

POOL HALL FREQUENTER FINED THOUGH MARRIED

(Special Correspondence.)
LOGAN, Feb. 9.—When a young fellow gets married he is apt to esteem himself a man and desire all the privileges that are granted to men and if denied them he thinks that a tremendous injustice has been done him. This was the case of a young man of this city looked at it today when he was brought before Judge Bringham for frequenting a pool hall and fined \$5. He was married about a month ago but is not yet 21 and was therefore guilty of violating the law as to minors being in pool halls. Another boy caught with him got the same punishment, and a drunk was assessed \$10.

G. Barber; vice president, D. C. Budge; secretary and treasurer, John W. Bankhead; manager, George W. Skidmore; and directors, H. E. Hatch and George W. Skidmore.

SURGICAL OPERATION.

LOGAN, Feb. 9.—The first operation for the removal of adenoids in children, to be made here at the suggestion of the school authorities, was performed today by County Physician Clark upon Arthur Nielsen, the son of a widow living here. The boy was very backward in his school work, being in the second grade only while he was 13 years of age, and so after securing the consent of the boy's mother, the city superintendent recommended that the operation be performed.

MOTHER TO LOSE CHILDREN.

LOGAN, Feb. 9.—Judge Pedersen of the local juvenile court has on his hands a most unusual case, wherein he has practically decided to take all her children from a Mrs. Sink who, it is alleged, is living an immoral life. Homes have been found for the children and the woman will have to part with them unless some other arrangement is made before Tuesday, when the case comes up.

DEBATING AT THE U. A. C.

LOGAN, Feb. 9.—This year the interest in intercollegiate debating is far greater than it has ever been in the history of the institution. In the first place, the students are excited at the prospect of a debate occurring here, one with the University of Utah, one with the B. Y. U. of Provo and one with the Montana Agricultural college. Two of these, the University of Utah and the Montana college, are to debate the first time this year, and the Provo debate has been an annual affair for some time. A large number of promising young debaters entered the try-outs for these teams and as a result the following men were chosen to represent the U. A. C. in the debate with the B. Y. U.: J. W. Sessions, L. A. Stevens and J. B. Decker. This debate will be held in Provo about March 15.

The question is: Resolved, that a central bank be established to be operated under the supervision of the federal government; constitutionally conceded.

About two weeks later Asa Bullen, John V. Welch and D. E. Nelson, with M. O. Maughan as alternate, will represent the school in the University of Utah debate at Salt Lake City. The question is: Resolved, that a system of local deposit guarantees similar to that in use in Oklahoma, is desirable.

The students who are not already on one of these teams are preparing for the try-out to select the Montana team. This will take place in the near future.

Meanwhile various intercollegiate debates are being held. Tuesday afternoon the sophomores defeated the freshmen in an interesting debate—Resolved, that the greenbacks should be retired, the sophomores arguing for the affirmative.

Joseph J. Hawkes, a little son of Mr. and Mrs. Herbert Hawkes of this city, died last evening, after a long illness, of heart affection. The child was a little less than 3 years of age. Funeral services are to be held in the Second ward meetinghouse at 1 p. m. on Thursday.

A little son of Mr. and Mrs. D. W. Hess of the Sixth ward was badly hurt while coasting yesterday, a steel belt cut in his head that required eight stitches to close. At first it was thought that a fracture of the skull had occurred but that idea has been dispelled and the boy is now getting along nicely.

LEHI.

PROHIBITION LAW IS STRICTLY ENFORCED

(Special Correspondence.)
LEHI, Utah, Feb. 8.—Chase Featherstone has the distinction of being the first man arrested in Lehi since the first of the year for drunkenness and it was not caused through liquor obtained in Lehi. He was taken to Salt Lake

Saturday and instead of staying home when he came back at 6 p. m. went up town a little the worse for Salt Lake liquor and was arrested by Marshal East who had him as the city's guest for part of Saturday night. Mr. Featherstone was brought before Judge Ell Kendall yesterday morning and was fined \$10. Had he not drunk on Lehi liquor, if there is any to be found, it is hard to tell where he and the selling party would have got off at.

Last week Judge Kendall fined three young men from Lehi Junction \$10 each for gambling.

Lehi for once seems to have officers who will uphold the law in its fullest sense, and while some may censure the strictness of the officers, the most of the people rejoice in the great change for good that has come to the city since the closing of the saloons the first of the year.

(Special Correspondence.)
SPRINGVILLE, Feb. 8.—Hyrum Scovel had been convicted of selling liquor contrary to law and sent to the county jail at Provo to serve 60 days for the offense.

Springville officers purpose strictly enforcing the law against illicit liquor selling now that the other town of good people are in line and convinced that prohibition is the proper thing in order to maintain good order.

It is surprising to the observer to note the difference in conditions here since it is so hard to get drink from the adjoining towns.

THISTLE.

CAPTURES GENUINE RACCOON IN HEN COOP

(Special Correspondence.)
THISTLE, Utah, Feb. 8.—Mr. William A. Pace caught a genuine raccoon in his chicken coop the other night. It was hard to convince the people here that it was a coon, contending that those animals did not live in this part of America. But by comparing with pictures and descriptions of those animals and getting other all the experts in this vicinity, it was finally decided that the dead animal was a real raccoon.

Plenty of snow and snowing every second or third day are conditions here.

The route designated runs from Gunnison to Salina, thence to Aurora, thence south through Venice, thence to Richfield, thence south to Central, thence to Elsinore and then south to Marysville. RICHFIELD, Feb. 8.—The case of the city of Richfield vs. George Flint came up for hearing before Judge Howell on Monday on a writ of prohibition. The defendants met defeat on all their technicalities except the one in relation to the recording of the city ordinance. Defendants alleged that the ordinance was inoperative from the fact that there was a provision in the city ordinances that they must be recorded to be effectual and that the one under which complaint against defendant was drawn had not been recorded.

The city was given 10 days in which to file a brief on the question at issue and the defendants the same time to make answers.

She was born about 76 years ago and was the wife of the late J. E. Allred. During the past few years she had lived alone, but was cared for by the neighbors. The morning that she was found she became alarmed when she was not seen. The 13-year-old son went into the home, where he found her dead. A thorough examination of the surroundings was made and it became evident that she had been preparing for the night when she fell to the floor and expired, evidently without a struggle. She had been afflicted with heart trouble.
